

# NOKSEL E TYPE INSULATING SLEEVE FOR SPIGOT SOCKET STEEL PIPE.

## FEATURES

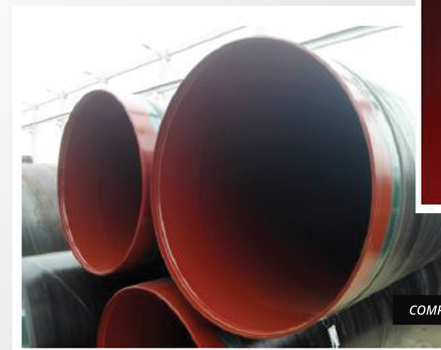

- ➔ A simple spigot & socket push-fit joint.
- ➔ Provides an insulating air chamber which protects the internal lining during welding.
- ➔ Internal sleeve is welded in place during the manufacturing process.

## MAIN ADVANTAGES

- ➔ Easy to join pipes together, reducing installation time and costs.
- ➔ Only external welding is required on site.
- ➔ No internal lining repairs are necessary after on-site welding.
